

A global awareness day  
shining a light on the largest  
cause of death in people  
with epilepsy

Epilepsy is one of the most  
common neurological  
conditions globally, affecting

We know that up to  
50% of all epilepsy  
deaths are SUDEP

SUDEP *stands for*  
SUDDEN UNEXPECTED  
DEATH *in* EPILEPSY

**Let's take action!**

**Join us to raise awareness and save lives now**
